NO DECISION IS REACHED TODAY IN GIGANTIC BATTLE

GERMANS REACH THE MARNE. ALLIED LINE REPELS SOME ATTACKS. LITTLE HOPE FOR RHEIMS.

(By the Associated Press)

Hurling the weight of great numbers against the stubbornly resistant French defenses north and south of Soissons, the German Crown Prince has been unable to progress on the vital sector of the battle line from Noyon to Rheims. In the center German detachments have reached the Marne between Dormans and Chateau Thierry but on the east the Franco-British line stands firm. After their retirement to the line running through Blerancourt and Epagny the French halted and in a series of furious attacks have held the enemy forces. West of Soissons the Germans have been repulsed with great losses for some ten miles south of the town and have not advanced over several yards after the initial advance. Rheims still holds out, but little hope is entertained that the defenders will long withstand German attacks. The line eastward through Champagne to Verdun is not yet affected by the Aisne front battle. Since Monday the Germans have advanced southward from the Ailette river across the Aisne and Ourcq to a depth of twenty-six miles and reached the Marne. Berlin claims the number of prisoners is now 45,000. Elsewhere on the western front, including the American sectors, there has been a decrease in activities.

BUSINESS MEN WHO LABORED FRIDAY

The following is a list of the business men who answered the summons of the labor department of the Council of Defense and did emergency farm work in Pecan Grove and Lovelady districts: L. E. Woodward, Treist Merritt, Clarence Lowery, W. J. Collins, Joe Beck, Jim Couch, Verne Vincent, Luther Kroth, W. M. Hubbard, S. T. Carrington, Royal Mitchell, A. B. Meigs.
The majority of these men were drawn from the business houses of the city, consenting to serve only with a view of saving crops that were in danger of being lost.
Other places were supplied with permanent help by the department. The outlook for the situation as far as labor is concerned does not seem at present to be as serious as many were afraid it would be, although the real test of the ability of the community to take care of its own problems has not yet been made. Cooperation and encouragement is asked of everybody interested.

DR. WYLY CONSIDERING FLOYD'S SUGGESTION

Supt. A. Floyd is in receipt of a communication from Dr. W. S. Wyly, supervisor of schools for the five civilized tribes indicating that he considers there is some merit in Mr. Floyd's contention that incorporated towns should share in the federal appropriation for schools in proportion to the non-taxable lands in their districts. He asks for information in regard to this situation in Pontotoc county.

Mr. Floyd's investigation of the records show that in Allen district there are 2,961 acres of non-taxable lands out of a total of 7,040; Francis 2,564 out of 5,280; Ada 5,228 out of 10,000; Stonewall 4,000 out of 7,400; Roff 6,403 out of 12,960.

FRENCH MAKE COUNTER ATTACKS

HURL BACK HUNS IN SOISSONS REGION AND TAKE SEVERAL HUNDRED PRISONERS.

(By the Associated Press)

Paris, June 1.—Along the northern Marne bank the Germans pushed forward advance parties from the north and east borders of Chateau Thierry as far as Verneuil. On the French right flank there was sharp fighting on the road between Lormans and Rheims the situation is unchanged northwest and north of Rheims.

The German attack continued during the night with reduced violence on the western side of the new salient between Soissons and Thierry. French troops made counter attacks and drove back great masses of Germans in the Soissons region and on the lines of Chaudun-Vierzy, gaining ground everywhere and taking several hundred prisoners the war office announces.

German Guns Booming.
London, June 1.—German artillery was considerably more active this morning in the sectors of villages Bretonneaux east of Amiens, and Hebuterne east of Albert, it is announced officially.

Air Raids on Paris.
Paris, June 1.—German airmen attempted two raids on Paris last night. The first failed but on the second occasion bombs were dropped on the capital.

Casualty List.
Washington, June 1.—Today's casualty list contained fifty-seven names divided as follows: Killed in action, three; died of wounds, six; died of disease, ten; died of airplane accident, one; wounded severely, seventeen; wounded slightly, eleven; missing in action, nine.
Private William C. Hostetter of Oklahoma City, died of disease.

PONTOTOC'S QUOTA PROBABLY 154 MEN

W. A. Riley estimates that the call of June 24 will take about 154 men from Pontotoc county to the army training camps. There are still 193 men of class 1 in the county who have been passed by the medical board and the above estimate is based on the ratio of 80% of this number. Besides these there are 31 scattered over the county who have not yet been examined. Some of these may be picked up and thus swell the total of this class. After this call the young men arriving at majority since last year will come in and after that the second class will be drawn on, unless in the mean time congress changes the procedure.

OKLAHOMA WEATHER CONDITIONS FOR WEEK

(By the Associated Press)
Oklahoma City, Okla., June 1.—Moderate to heavy rains were general in the northern portion of Oklahoma, while only light, widely scattered showers occurred in the southern portion during the week ending May 28, says the synopsis of weather and crop conditions for that period issued by the weather bureau of the Department of Agriculture.

Brisk and drying winds were prevalent most of the week and were injurious in many western counties where soil moisture is still deficient. Cotton planting continued during the week in some localities but the bulk of the crop is already up to a good stand. Both cotton and corn made good growth in practically all sections of the state and are generally in good condition.

The planting of sorghum and cane and the transplanting of sweet potatoes was pushed rapidly during the period covered by the latest report.

FOOD ADMINISTRATION AFTER RICE THROWERS

(By the Associated Press)
Columbia, Mo., June 1.—The jolly little fun-makers who have been in the habit of casting rice and old shoes at departing brides and bridegrooms will have to find some other way to speed the parting June brides for the Food Administration has called attention to this wasteful practice and has frowned upon it as being unpatriotic.

Rice is too precious to waste. Every grain is needed for human food, it is pointed out, and it will go far toward making up for lack of wheat in the diet. When it is heaved at bridal parties at church doors, railroad stations and hotels it is a total loss. Tying old shoes on the backs of the taxicabs and throwing them after the wedding parties also, should be abandoned in the interest of conservation, the Food Administration believes. If you have any old shoes you don't want, give them to the Red Cross to be sent to the Belgians and the sufferers in France.

Prospective June brides, also, are minded to make their wedding feasts strictly patriotic. They should use no frosting because of the amount of sugar required.

HUSBAND GONE—SONS GONE— HOME AND RELATIVES GONE

A Fact Story Telling Just What the Red Cross Did for Mme. Pellier.

By an Eye Witness

MAUDE RADFORD WARREN

This is the picture I saw last January in France, and you have mercifully changed it! Color enough there was—above, the eternal blue; in the background, fields of living green, which the German shells could not prevent from creeping back; in the middle foreground, a long village street so battered and burned that it was merely a canyon of cream-colored ruins. In front of one little broken house were four figures in black—an old woman, poking among the fallen stones in a vain search for something that could be used; a younger woman, seated on what had once been a doorstep, with her face hidden in her arms; and a little boy and girl, who stared, half frightened, half curious, at the desolation about them. The little boy held in his thin hand a Red Cross flag. All four were pale and gaunt; the faces and bodies of the children showed none of the round curves that make the beauty of a child.

This is their history: When the war broke out, Mme. Pellier, her mother and her four younger children were visiting her husband's mother in the north of France. Her husband and two elder sons were at home in Lorraine taking care of the summer crops. Then the war! The mother-in-law of Mme. Pellier was ill and could not be left. Her old mother was afraid to travel to Lorraine with the full care of the four children. Before they could all start together the Germans invaded. Bad news is allowed to come into northern France, and so as the months passed Mme. Pellier learned that her village home had been bombed and that her husband and two sons had been killed. Except for the Belgian Relief Commission, which operates in northern France also, she and her little ones would have starved outright. At the best they were undernourished. Then the great push began, and hopes for France grew high. But as the French soldiers advanced they had to bombard the northern towns. Mme. Pellier begged the Germans to let her go away with her children—even into Germany. This was refused. She tried to seek safety in some cellar whenever there was a bombardment. Nevertheless a shell killed two of her children.

Found Her Home Gone.

Home gone; husband gone; brave soldier sons gone; little, tender boys torn into shreds! That woman's face would have shown you what she had suffered—her face against the battered ruins the Germans had made. At last she and her mother and her two remaining children were repatriated. They knew the infinite relief of cross-

Things the Red Cross Did.

You took the mother of Mme. Pellier to a Red Cross hospital to be treated for anemia. You took the little girl, who was in the first stages of tuberculosis, to a Red Cross sanatorium. You found a place which could be made habitable for Mme. Pellier near her fields which she was anxious to till. You gave her clothes and furniture; you got her seeds; you lent her implements. You sent a visiting doctor to watch over her health and that of her little boy. You sent nurses, who achieved the mighty victory of making her and the child take baths. Later you persuaded her to let him go to a refuge not far away where he might attend school and where she could often visit him. Through the help of your Red Cross hope and courage and ambition have come back to that woman, and she is rebuilding her family life. The biggest thing one human being can do for another, if you are a helper of the Red Cross, have done for that mother.

Red Cross! I saw its work everywhere in France—in fields and in blasted villages; in hospitals and schools and clinics; in refugee and vestimentary for widows and orphans and for the sick children of soldiers fighting to keep you safe from the enemy. This symbol of help has a double meaning now for Americans, who have always taken for granted the blessing of safety. It stands for your willingness to pay the price of exemption, of pity, of sympathy. A bitter, black road this road of war, but across it, like a beacon of hope, you have hung the Red Cross.

A MOTHER'S PROMISE TO HER SON

By KATHLEEN NORRIS

My Dear One—I'm writing this very, very small and on the thinnest of paper, so that tightly folded it may slip into one of the olive drab pockets of your new uniform without encroaching for the tiniest part of an inch upon all the new things that you must have there—the passports and identification slips and photograph, the knife and pen and writing pad, the lists and numbers and names and ciphers, the address book and the thin manual you have been studying so hard and the slim little Bible, for this letter is a part of your equipment, too, or at least I like to think that it is.

I'm going to tell you in it just one or two of the things we've been trying not to say in these last days. You've said to yourself, haven't you, that there were possibilities that I, thank God, hadn't seemed to think of. You've marvelled gratefully, haven't you, that I could say goodbye with dry eyes and talk about what we should do when the war is over. My dear, there is nothing—nothing—that can happen to you that I haven't foreseen in every detail since May, since the very beginning of it all. I know that some of our men are not going to come back. I know—as I write this in the room you love—that your fingers may fumble for this little piece of paper in some dreadful hour, a month or two months or six months from now, just to read it over once more for the last time, just to feel in your fingers out there in a shell lighted battlefield something that I have touched—for goodbye.

And thinking of all this for almost a year while you've been getting ready to go I've been getting ready to stay. Just as you planned I planned, and I said to myself: "When the time comes for us to part I shall make him a promise." Dear one, this is my promise, and I make it for the term of your own—"for the duration of the present war."

I promise you that while you are away, whether it is months or years, nothing except what I can give you and give all the others shall fill my life. I promise you that I shall devote myself, here in safety, to the work of making what you do easier and stronger and safer for you. I promise you that I shall give—and give and give—for the Cause! Not the money I can spare, not the time I have left when everything else is done, but all the money, all the time, all the energy I have!

Your whole life has been altered, has been set to sterner and graver music. So shall mine be. You will know self denial, privation and fatigue while the war lasts. So shall I know them. Even if black news comes, even if the blackest comes, I shall remember that against your brave heart this promise is resting, and I shall go on. And while there is one man among our million and among the millions of our allies who needs clothing and nursing and comforts and solace for your sake I shall not fail him.

Perhaps in God's goodness this note will come safely back to me in the olive drab pocket, and we will smile over it together. But, remember, until that hour comes I shall be always busy filling my own small place in the great machine of mercy and as truly under the colors over here as you are over there. God bless you!

A Home to be Proud of

First of all, you want your home to be comfortable, but attractiveness, too, is essential for you want to be proud of the house you live in.

Here is a bungalow comfortable and beautiful. It is a home to be proud of.

Living Room—On entering the front door you find yourself in a bright vestibule. A study of the floor plan will show you that the living room has ample light and ventilation. A built-in Standard Design colonnade separates the living room from the dining room.

Dining Room—A cozy seat is built into the recess in the wall beneath the windows in the dining room bay. Notice on the plan where the sideboard is located. It is one piece with the kitchen cupboard and is built into the wall between the rooms.

Kitchen—In the kitchen the range is across the room from the work table and sink. The big screened porch serves as an addition to the kitchen, with space for a refrigerator and a table. Don't overlook the entrance from the screened porch to the basement stairs.

Bed Rooms—The bed rooms in this bungalow are separated from the rest of the house. The front chamber has a daylight closet. The rear room has a window on each of two adjacent sides.

Bath Room—A built-in medicine case with a plain plate mirror over and a little drawer sets in the wall over the basin in the bath room.

Come in and let us tell you more about this and other homes.

If you think of building it will pay you to see us. We have the lumber and other building material, and will save you money as we manufacture a good part of our own lumber. Can send you a good contractor to build for you. This is only one of many house plans we have, and can make any change in the floor or roof that you may want. We also sell Red Picket Fence, screen wire, screen doors, house paints and inside wall finish of all shades and the very best brands.

TRAINING HOMING PIGEONS FOR MILITARY USE

(By the Associated Press)

Chicago, June 1.—With more than a hundred homing pigeon lofts over the country, experts in training at every camp and new tests being made by long flights daily, the Pigeon Section of the Department of Signaling is facing the serious problem of preventing slaughter of the birds by persons who fail to realize their importance. It is understood a number of cases are under investigation by the Department of Justice here. Congress recently passed a law providing a maximum penalty of \$100 fine and six months imprisonment for killing government pigeons.

The birds trained in this country can be used in France only for breeding purposes, as the winged couriers must be put into service before they "settle" which is at the age of eight weeks or less. France and England have about 60,000 of the birds and Germany, at the opening of the war, is said to have had 50,000. The United States is expected to have more homing pigeons of the "ninety percent efficient" class than any country in the world before winter, according to officers.

Birds accepted by the United States must have pedigrees and be of the racing homer breed. Those now used as carriers are not the original carriers, but are known as the racing Belgian homer, a cross from the English carrier to the tumbler and

then through one of the owl-pigeon breeds.

"Up to a distance of thirty miles the homing pigeon can make two miles a minute," said Lieutenant William L. Butler, Department Pigeon Officer, Central Department, Signal Corps, United States Army. "They have flown as far as eight hundred miles on a single flight."

Lieutenant Butler said that these birds, when released under the heaviest barrage, would swing upward, cut a great circle to get their bearings and then dart for their lofts at a height of half a mile with such speed as to defy anti-aircraft fire.

Recent tests have shown that on short distance flights the birds can surpass the wireless in speed when the message is of any length.

4,000 OKLAHOMANS IN NEXT ARMY CALL

Oklahoma City, June 1.—Oklahoma will furnish 1.4 of the 280,000 selected men called in the June 24 draft, according to E. H. Gibson, state adjutant general. The adjutant general estimated that between 3,800 and 4,000 Oklahoma men will be called.

General Gibson said he believed that none of the youths who will be registered June 5 will be included in this call. He declared that it will be impossible to have the questionnaires returned and classified and the men examined as to their physical qualifications in time to be included in the June 24 call.

Oklahoma has sufficient men in Class A to meet the June call, the adjutant general asserted. He added that there will yet remain in the state after the June call sufficient men in Class A to create a surplus for similar call.

HARRIS HOTEL UNDER NEW MANAGEMENT

The Harris hotel management was assumed today by A. C. Young of Oklahoma City. Mr. Young is an experienced hotel man and has for a number of years been connected with the Lee-Huckins hotel of Oklahoma City and is well and favorably known to many citizens of Ada. The Young family arrived Friday evening.

I have a few real bargains, for quick sale; also houses of different sizes and well located lots. If you want to buy something, see Cloer at Commercial hotel for quick action. 6-1-1t

Just a week from today a total eclipse of the sun will occur. It will lack a little of being total at Ada, but it will be nearly so and those wishing to see it at its best may go to Shawnee or Oklahoma City. The phenomenon will take place about 6 P. M.

We want information as to who removed our patriotic fans from the churches of the city. They were distributed Friday morning among the various churches and have been replaced by a similar fan. Liberal reward offered.—G. T. Blankenship Undertaking Co., 203 East Main. 6-1-1t

A War Savings Society is a War Club and is as essential for the promulgation of thrift and savings as the old-fashioned war club was for the savage.

Sweet Potato Slips. Plenty on hand now ready for delivery; well rooted and in first class condition. See Sherwood Hill or Rains Bros. 5-29-6t

For the convenience of the public the News is carrying on sale a supply of Thrift Stamps and War Savings Certificates.

The Evening Star.
The evening star a child espied,
The one star in the sky,
"Is that God's service flag?" he cried
And waited for reply.

The mother paused a moment ere
She told the little one,
"Yes that is why the star is there!
God gave His only Son."

Call me if I can be of any service to you.—Clifford B. James, Pastor. Parsonage 165 E. 13th. Phones 94 and 246.

Invitation to Students.
The Young People's Society of the First Christian church extends a special invitation to the summer students to attend its meetings at 7:30 p. m. each Sunday. Our topic for this Sunday evening is "Christian Duty in Church and Community," a subject of vast importance to all. You are urged to be present.—Mary Ester Chisholm, Chairman of Prayer Meeting Committee.

The First Methodist Church.
There is a place for you in our system of work and worship at "The Home-Like Church." There is a place for you at Sunday school at 9:45 and Prof. A. L. Fentem will be delighted to take care of you. Our Epworth League that meets at 7:30 is made up of a bunch of live wires and you will have to hump it to keep up with them.

"America the Child of Providence" will be the morning sermon theme. With this message the pastor hopes to inspire all listeners to the highest

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadowville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before."

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it.

and noblest patriotism. Clay Vaden will sing "My Task" as a solo at this service and Prof. Morris will begin his services as Musical Director of the church.

"The Millionaire and the Mendicant" will be the subject of the evening sermon, and at this service the pastor will sing "The Two Lives."

Our friends from the Summer Normal will find a cordial welcome to all meetings. We shall expect the majority of them to make our church their church home while they are in the city, since such a vast number of them are Methodists. Our home is open to the mat 125 West Fourteenth. We are here to serve them as we are here to serve others also.—Wallace M. Crutchfield, Pastor.

Y. P. C. E. at First Christian.

Service tomorrow as follows:
Sunday school at 9:45 a. m.
Morning services at 11 o'clock.
Don't let the inconvenience of warmer weather discourage. This is no day and season to be discouraged at trifles. Remember what our heroic boys in the trenches are doing for us. Let's "keep the home fires burning brightly." One of these is the church and its gospel. And its importance must increase with the darkening of the shadows ahead. Like the Master we shall triumph, but also like Him, through real sacrifice.

The public is cordially invited and assured a warm welcome in the little church with a big heart.

Remember also the Wednesday evening services elsewhere announced.

WAR WORK OF NATIONAL AMERICAN WOMAN SUFFRAGE ASSOCIATION.

The National American Woman Suffrage Association, of which Dr. Shaw is honorary president and Mrs. Carrie Chapman Catt is president, began its work for the war by an offer of service to the government in February, 1917. For the past year the association has had vigorous campaigns of war service all over the country.

The women of the suffrage association have helped to take the military census.

They have raised millions of dollars of the Liberty loan.

They have worked for the Red Cross.

They did a nation wide work in food production and food conservation in 1917 and will do a bigger one in 1918.

They have now co-operated with other women's organizations to raise an army of women to work on farms.

They are carrying on an extensive work in Americanization of the alien.

They have a committee on guard for equal pay and for the protection of women in industry.

They have pledged support to the work for the children of the nation.

To Property Owners.
In many places there are shade trees and fruit trees with limbs over hanging the walks, so low as to be in the way of people passing.

This is very annoying especially in wet weather. You will please cut the limbs that are in the way, to a sufficient height as you can do this nearer to suit you than we can and it must be done. P. H. DEAL, Com. Pub. Works & Prop. 5-31-2t

An engine that lures power from gas and sets it down minus jerks, vibrations, into a softness of action that has never been surpassed; "Hot-Spot" and "Ram's-Horn" Manifold (Chalmers devices) are responsible

The perfect engine is the one that takes from gas all the power that's there; and gives it up to you either brutal, or violent, or soft, as you wish.

That's the Chalmers engine, now recorded all over America as a great engine, which comes closer to reaching 100% of efficiency than any motive device yet designed. "Hot-Spot" and "Ram's-Horn" Manifold are responsible. The first named heats up the gas, "cracks it up," "pulverizes" it, gets it into wonderful shape for ignition, and then the "Ram's-Horn" Manifold with its "easy air bends" tosses it gently into the combustion chambers.

So that after the flash of the spark plug there is so little residue, so little waste, so little power escaped into the exhaust as to be scarcely worth while mentioning.

But the kind of power is a new power—a gentle, soft power like the "iron hand in the velvet glove" that entices you beyond words once you experience the thrill.

WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO

JUNIOR MEMBERSHIP.

Junior Membership has developed in response to an earnest desire of pupils in many states to render patriotic service in this time of need. It was natural that the school children should wish to become a part of the great Red Cross movement for war relief. Planned and administered by educators, Junior Membership cannot fail to be of value in vitalizing the work of the schools, while their total product will be of great service to the Red Cross.

The following important facts should be generally known:

1. That the organization was formed in response to a demand from schools.

2. That leading educators all over the country are advisers to the organization and its activities.

3. That President Wilson has issued a call to all school children and teachers to join in this patriotic work.

4. That junior membership is open to all boys and girls of school age attending public, private or parochial schools or attending other organized educational centers, but only to such student bodies as a whole.

5. That junior membership is open to grades in the school, providing the school contemplates complete organization later, but not to individual pupils.

6. That junior membership is granted when a sum equal to 25 cents for each child in the school has been contributed to the chapter school fund or when the school is pledged to prepare Red Cross chapters or engage in other Red Cross work approved and supervised by the Red Cross chapter.

7. That all money raised is to be spent for materials which will be used by the school for its Red Cross work. No part of the school fund is used for local Red Cross expenses, and no part goes to Washington.

Red Cross activities for boys and girls have been classified as follows:

Group 1—Children 6 to 10.

Gun Wipes—Cut one-inch squares of flannel or flannelette or any woolen material and thread 50 on a string.

Gun-Cleaning Rags—Cut 12 to 14 inch square from soft material. Do not hem.

Wash Cloths—Knit or make from toweling with crocheted edges.

Baby Afghans—Knit or crochet five-inch squares of blue, pink or white wool. Sew together six squares for length and five for width.

Group 2—Children 10 to 14.

Sleeveless Sweaters, Wristscuffs or Mittens—Knit according to directions in A. R. C. 400.

Baby Afghans—(See directions in first group.)

Afghans for Soldiers—Knit from any color wool seven-inch squares. Twelve squares for length and six for width.

Substitute Handkerchiefs—Make 13-inch squares from soft but strong linen or cotton, hemmed.

Hand Towels of Linen Crash—Hemmed usual size.

Group 3—High School.

Hospital Garments—(See A. R. C. 405.) All Knitted Articles—(See A. R. C. 406.)

Refugee Layette—(See A. R. C. 407.) Comfort Kits—(See A. R. C. 408.)

Patterns for infants' layettes may be obtained through local chapter from Bureau of Supplies, 1230 Olive street, St. Louis, Mo.

Surgical Dressings—Greatly needed. For directions see A. R. C. 401, also surgical dressings, this issue; these should all be made under supervision of an instructor.

Work for Boys.

High Schools: 1—Boxes for Red Cross shipping purposes, 3 feet by 2 feet by 2 feet, outside measurements, of 1/2-inch lumber.

2—Workroom furniture, for local chapter or to be sold, tables, chairs, shelving, etc. 3—Cans.

4—Clerical work, typewriting, multigraphing, etc., for local chapter.

Grade Schools: Knitting needles, for use of local chapter or school children. These are made 12 inches long, of hard wood cut from dowels secured from a cabinet maker, sharpened at both ends with pencil sharpener, sandpapered, then rubbed in floor wax until perfectly smooth.

2—Knitting frames: a flat wood on ring 10 inches in diameter or larger, with pegs one inch apart; to be used by small children in weaving scarfs.

All Grades: Service in local Red Cross work—collecting newspapers to sell, helping in Red Cross campaigns, Liberty Loan campaigns, by distributing posters, running errands, etc.

A SOLDIER'S PLEA FOR THE LOAN.

I'm wondering as I sit here in the trench's slime and mud, A-listening to the bullets with their whistle and their thud; I'm wondering how the stay-at-homes would feel if they were here; I wonder what they're doing that will bring the soldiers cheer.

Are they sitting home of evenings, feeling snug around the fire, Jangling money in their pockets; every comfort they desire? Like as not they're talking war talk, wishing that the strife would cease, But I wonder what they're doing that will help to bring on peace.

Of course the shops must flourish, and of course the crops must grow, For it takes a lot of oats to keep the army on the go. But the thing that's got me guessing is just how the profit's spent—Are they banking every dollar—are they hoarding every cent?

I'm told that my America is asking for a loan; That they're selling U. S. Bonds, the safest thing a man can own. I'm telling you they're slackers back at home if they don't buy, And a slacker is a traitor in the U. S. soldier's eye.

The dollars that are loafing over home should go to work—The government that made them didn't mean to let them shirk. For if the Hun should win here and go over 'cross the pond, Every Yankee would regret the day he didn't buy a bond.

—A Soldier in France.

WHAT THE RED CROSS IS DOING AND WHAT YOU CAN DO

CANTEEN SERVICE DEPARTMENT.

The Canteen Service of the Red Cross has organized to date 104 active canteens in towns along main railway lines in the Southwestern Division, that is in the states of Missouri, Kansas, Arkansas, Oklahoma and Texas. Every day these canteens are rendering aid to our soldiers in the way of giving them hot coffee, sandwiches, fruits, and in case of severe illness, giving immediate hospital service.

The value of this personal touch cannot be over estimated. Nothing cheers the boys up like the warm reception they get from a Canteen Committee, especially when hungry and tired, and they leave the town with the feeling that the people are proud of them and will stand back of them.

When the women understand how much real good they can do by paying this attention to our soldiers they will all want to do their share, for in no better way can they do their bit to help our boys who are about to make the supreme sacrifice for their country.

It ought to be a great satisfaction to the parents and friends of the boys of our Southwestern country to know that wherever they go in the United States the canteens of the Red Cross are on hand and ready to take care of them in case of an emergency, and therefore, we know that the women of the Southwest will welcome the opportunity of establishing Red Cross canteens to take care of other troops that may pass through their own home towns.

Innumerable letters are received from the officers and men showing their appreciation of the attentions that have been shown them by the Red Cross canteens on their journeys.

I will quote from but just two letters to show just how the work of our canteens is appreciated by the army.

Extract from New Orleans report: "I am sure that every one of the men who were cheered and benefited during their arduous tour of duty would be glad to thank you personally for your thoughtfulness, but, as this is impossible, I am happy to be in position to do it for them and to express my sincere appreciation of the efforts

Extract from Richmond (Va.) report: "I might add, for your information, that the canteen committee waited on a train coming from Texas on the 30th ult. and took charge of a sick soldier ill with pneumonia and took him in an ambulance to the Memorial Hospital. Yesterday we cared for another soldier at the Memorial Hospital, who was coming from the West on a troop train from Louisville."

A canteen is organized in a Red Cross chapter by the appointment of a chairman and a committee of from 10 to 20 who are ready to report for work when a call comes. Arrangements are made beforehand for the preparation of hot coffee and sandwiches in large quantities on short notice, and for its transportation to the station. The women all over the country have entered enthusiastically into this work and are willing to serve at all times of day or night. They are required to wear a canteen uniform to show that they are the official representatives of the Red Cross, and as such the soldiers are willing to accept their service.

SUBMARINES ARE BUSY OFF THE COAST OF NEW JERSEY

SEVERAL SINKINGS ALREADY SCORED. OUTGOING VESSELS ORDERED TO REMAIN IN PORT.

(By the Associated Press)

New York, June 3.—One steamship, one schooner and two or three other vessels have been sunk off the New Jersey coast by German submarines. The ships were attacked some time during the night, according to information reaching here. Details are not immediately available. Port authorities have barred outgoing ships from leaving this afternoon.

15 Sinkings Latest Report

New York, June 3 (1 P. M.)—Information received at the Maritime Exchange here indicated that as many as fifteen vessels have been sunk. One of the ships destroyed was the Edward H. Cole, a sailing vessel, and the survivors have been landed here. They report the vessel as torpedoed and sunk about seventy-five miles off the highlands of New Jersey yesterday afternoon.

Navy Department Reports 3

Washington, June 3 (1 P. M.)—The navy department has announced the receipt of official information that three American schooners had been sunk off coast by enemy submarines.

Rumor of Submarine's Capture

New York, June 3 (3 P. M.)—Later advices told of the sinking of two more sailing vessels, the Sadie Dunn and the Samuel W. Hathaway, in addition to the Edward H. Cole. It is presumed that the submarines are now being dealt with by American destroyers. The submarines attacked the Cole simultaneously, according to the vessel's commander. The crew was ordered to take to the boats and bombs were exploded on the vessel.

Unconfirmed reports from Chatham, Mass., told of sinkings off the coast there. The ports of New York, Boston, Philadelphia, Narragansett and Chatham Bay have been closed to outgoing ships till further notice. A rumor reached the office of the third naval district here that one of the submarines had been captured by a United States warship but no confirmation is available. The attack upon American shipping almost at the entrance to New York harbor is taken to mean that Germany has at last inaugurated a submarine campaign to break up the transportation of troops to France. Rumors of German submarines off the American coast have been current for weeks.

CRITICAL WEEK ON THE FARM

A. L. FENTEM SAYS SITUATION DEMANDS THE HELP OF EVERY ONE

That the citizens of Ada and the other towns of the county must help the farmers this week is the opinion of A. L. Fentem, who is in charge of the office work of the labor supply. This is the critical week both in cotton chopping and in haying. A day's labor at this time may mean a crop saved.

"I want to appeal to every man in town to help in this work," says Mr. Fentem. "We want to disturb business conditions just as little as possible, but at the same time we must realize the condition the farmers are in. As an example of the condition: There is one man in the county with sixty acres in cotton. When this crop was planned and planted, his two boys were at home. Since that time both of the boys have been called to the colors and sixty acres are left to the care of the aged parents. It is certain these two old people cannot cultivate sixty acres of cotton. Others must help them."

"This is a critical time with hay. Unless hay is cared for at the right time it will deteriorate hurriedly. We cannot afford to lose any feed. We must save the hay."

"I want to emphasize the necessity of the farmers letting their wants be known through the chairman of the school district council of defense. The farmers should realize that when the men go out from town to help they are not going out primarily for the money. They are going in order to help save the crops and win the war. We do not want to send men unless the farmer himself absolutely cannot take care of his crop. The chairman of the council of defense is in the best position to determine this."

BOTH FEET CUT OFF BY FREIGHT TRAIN

Charley Gross, a 17-year-old boy from Allen, lost both feet as the result of a railroad accident at Steedman Sunday afternoon. A party of five boys were trying to board a freight train for Allen and Charley Gross missed his footing, going under the wheels. It was necessary to amputate one foot at the ankle and the other above the ankle.

The boy is the son of D. A. Gross, an oil man of Allen.

HOME TALENT GRAND OPERA

WILL BE GIVEN AT NORMAL FRIDAY EVENING. MUSICAL TALENT PARTICIPATING.

The best thing that has ever been in Ada, is the way some of those who know about Queen Esther say the entertainment will be at the Normal Friday evening. This is to be a regular grand opera, with the musical talent of Ada lending the best that is in them to the occasion. Wonderful musicians are taking the leading parts, and wonderful musicians will assist in the chorus work.

Queen Esther is not simply a cantata as most people believe. It is dramatic singing, bringing into play all the emotions of human beings. The music ranges from the most tragical to the intensely comical. The characters were selected on account of their adaptability to the parts. Rehearsals have been held for almost three months.

Tent Show
At the close of the Lester Lindsey show Saturday night the announcement was made that these popular players will spend another week in Ada. The bill for tonight is "Peg o' My Heart."

GERMAN DRIVE LOSES FORCE

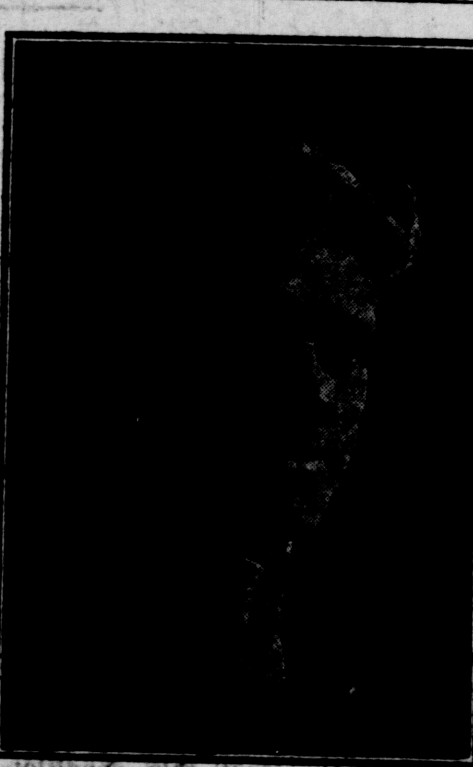

FRENCH RESISTANCE CHECKS RUSH OF HUNS. COUNTER ATTACK NET GAINS.

(By the Associated Press)

Bitterly defending every barrier in the enemy's path French resistance on the western side of the Aisne salient is increasing. Sunday was the quietest day the German advance has had since the renewal of the offensive a week ago. Although able to push back the French line between Soissons and Noyon, the Germans have been unable to break it and while continuing attacks there, they are making violent efforts from the line of the river Marne north to the Ourcq trying to outflank the northern allied sectors. The French counter-attacks along the whole front between Ourcq and the Marne and made progress at several points. A violent German attack on both sides of the road between the Chateau Thierry and Paris was broken up by the French.

That Germany wants something to
buy up the hopes of her citizens
and at the same time frighten the
people of other nations is made cer-
tain by the appearance of German
submarines off the coast of New
Jersey. As for the effect in Germany
we do not know what it will be. We
do know that in America it will have
just the opposite effect from what
Germany intends. The only legiti-
mate reason any one has ever
brought against our getting into the
war is that we are so far away from
Europe that we should not mix in
European affairs as Europe cannot
mix in ours. Europe can mix in ours,
this submarine shows, and the last
reason for not fighting even until
death has been dissipated. The war
is on now in earnest. Germany has
taunted us, tickled us under the nose
as it were. This freak submarine will
cause one hundred million people
to tighten their grip a bit, set their
faces a bit harder and go to the task
of killing off Germans with a little
more determination. Let the subma-

"Don't Answer"

When doubt exists as to the accuracy of such a report by the
telephone operator, there are three things to bear in mind.
First, that it is much easier and quicker for her to ring the
called telephone than to make such a report back to the
person calling.
Second, that people these days are out and about town on
a great variety of uncommon war-time undertakings, fre-
quently leaving their homes and offices with no one to
answer the telephone.
Third, sometimes a minor and temporary disarrangement
of the called telephone prevents the bell from ringing.
Be assured that the operators are trying hard to do their
part and that their efforts justify full confidence and
consideration.

BRUTAL TREATMENT OF AMERICAN PRISONERS

(By the Associated Press)
With the American Army in
France, Friday, May 31.—A Russian
prisoner who recently returned from
Germany has made a statement at
Moscow, which is now available here,
to the effect that he saw American
prisoners of war in camp at Tüchel,
West Prussia, and they asked him
to let it be known that they were
being treated brutally. The pris-
oners said they were hungry and
peniless.
The Russian said that eight Amer-
icans months ago reached camp at
midday and being very hungry asked
for bread. They were told bread was
distributed only in the mornings.
They were placed in a hut with Rus-
sians, after being forced to stand in
a square, where Germans were given
an opportunity to insult them.
The huts in which the Americans
are living, the Russian said, are
damp, cold and unfit for habitation.
Some of the Americans became ill.

ED BRENTS AFTER THE OSAGE COUNTY BOOTLEGGERS

Oklahoma City, June 3.—Many
gallons of extracts and bitters con-
taining alcohol and 466 gallons of
hard cider have been seized by T. E.
Brents, assistant chief special officer
of the Indian tribes, he told John A.
Fain, United States District Attorney
here yesterday over long distance tel-
ephone. Brents has been detailed by
Cato Sells, Indian Commissioner, to
clean out all alcoholic drugs in that
county and to get it away from the
Indians.
Of the amount seized by Brents,
2,661 bottles of it were extracts con-
taining as high as 75 per cent alcohol
and 754 bottles were various brands
of bitters containing 50 per cent al-
cohol. This came from Pawhuska,
Avant, Hominy, Bigheart and Skia-
took.

OKLAHOMA CUTS DOWN FLOUR CONSUMPTION

Oklahoma City, June 3.—A de-
crease of two-thirds in the amount
of flour shipped into Oklahoma
within four weeks has been reported
to C. B. Ames, state food admin-
istrator, from the milling division,
showing remarkable strides in the
conservation of flour in this state.
Reports, which include all flour
shipped to Oklahoma points whether
from mills within or without the
state, show the following receipts for
the entire state: Week ending April
13, 10,459 barrels; April 20, 9,307;
April 27, 6,071; May 4, 3,858.
Oklahoma's record for cutting
down flour shipments probably is one
of the best in the United States.

GWIN & MAYS CO., DRUGGISTS,
ADA, OKLAHOMA

CROP SUMMARY FOR MAY 1918

Oklahoma State Board of Agricul-
ture, F. M. Gault, President,
Oklahoma City, Okla.

Wheat shows a growing condi-
tion of 73 per cent. This is a decrease of
5 per cent as compared with the con-
dition of one month ago. The condi-
tion of wheat at same time one year
ago was 68 per cent. This decrease
in the growing condition is due to
the poor showing of the counties in
the Southwest, extreme Western and
Northwest parts of the State. In
these sections there has been very
little moisture, and wheat is showing
up very poorly from this reason
alone. In eighteen of the leading
wheat counties the condition has
changed very little during the past
month, reports showing that growing
conditions have been very favorable.
Condition of oats is 74 per cent.
Condition on same date last year was
71 per cent. Corn shows a condition
of 81 per cent. Same date last year
showed a condition of 78 per cent.
The condition of alfalfa is 80 per
cent. Condition of alfalfa was 88 per
cent, and on the same date one
year ago the condition was 78 per
cent. In almost all parts of the
State the first cutting has been
completed.
There is an increase of one per
cent in the cotton acreage as com-
pared with last year's acreage. Kaf-
fir and milo show an increase of 7
per cent, and sorghum 3 per cent.
The acreage in alfalfa this year is
one per cent less than last year.
Broom Corn shows a two per cent
decrease in acreage. The Sudan
grass acreage has been increased 1
per cent; barley and rye decreased
one per cent; peanuts increased six
per cent; and the Irish potatoe
acreage increased nine per cent.
The condition of the soil as re-
gards moisture is 83 per cent. Con-
dition last month was 89 per cent.
The Eastern part of the State shows
up with the best crop prospects. Re-
ports received at this office show
that from present indications a
bumper crop is to be expected.

MASSACHUSETTS NURSE

Tells Woman how to Get Strong.
Greenfield, Mass.—"I am a nurse

rundown condition with a cough—
my friends asked me to try Vinol. I
did so and it has built up my strength
so that I am in perfect health at the
present time and I am recommending
Vinol to others."—Mrs. F. M. Locke.
There is no secret about Vinol.
It owes its success in such cases to
beef and cod liver peptones, iron and
manganese peptones and glycerophos-
phates, the oldest and most
famous body building and strength
creating tonics. We strongly recom-
mend Vinol.—Gwin & Mays Co., and

CHOCTAW AND CHICKASAW

COAL DEPOSITS TO BE SOLD
Washington, June 1.—It is expected
that the Choctaw and Chickasaw coal
and asphalt deposits will be offered
for sale under terms of a recent act
of Congress by fall. The regulations
are now before the Secretary of the
Interior for approval and the ap-
praisers are working on the final
data in fixing the appraisement.
In a statement from Cato Sells,
Commissioner of Indian Affairs, to
Representative Charles D. Carter, it
is announced that all the tribal
property has been disposed of save
the coal and asphalt, 108 tracts of
agricultural and grazing land, sur-
plus of segregated surface, timber
land 119 town lots.

When the Indian appropriation bill
was passed there was not sufficient
money in the funds of the two tribes
to make a \$2,000 per capita payment,
as the bill requires, but since income
to funds has brought them to a total
of \$6,174,000, which is more than
sufficient to pay the tribal members
\$200 each.

The Long Arm of Mercy

By DR. FRANK CRANE

The Red Cross is the Long Arm of Mercy.
It is the Kindness of Mankind—organized.
In Man is an Angel and a Devil, a Dr. Jekyll and Mr.
Hyde. The Red Cross is the Good, aroused, energized to
thwart the Bad.

It is the best antidote we know to the bane of war.
There are other Charities, more or less helpful. The
Red Cross is the mightiest of all Charities, the Love and Pity
of all men made supremely efficient.

If, as Emerson said, "sensible men and conscientious
men all over the world are of one religion," this is the ex-
pression of that religion.

The Red Cross is Humanity united in Service.
It asks no man's opinion; only his need.

Black or White, Friend or Foe, to the Red Cross there
is no difference; it only asks: "Who is Suffering?" And
to him it goes.

The Red Cross is so Efficient that Governments recog-
nize it; so Pure in its purpose that whoever wishes well his
fellow men, desires to help it; so Clean in its administration
that the most suspicious can find no fault in it.

The Red Cross not only seeks to alleviate the cruelties
of War; it is the expression of those human sentiments that
some day will put an end to War.

It is the impulse of Love, striving to overcome the im-
pulse of Hate.

It is Mercy's co-operation struggling against War's ri-
valries.

It is the one Society in which every Man, Woman and
Child should be enrolled; for it knows no sects, no prej-
udices, no protesting opinion; the human being does not live
that does not feel that the starving should be fed, the sick
tended and the wounded healed.

Majestic and divine is this Long Arm of Mercy; it finds
the fallen on the battlefield, it brings the nurse and the
physician to the victim in the hospital; it leads the weeping
orphan to a home; it feeds the starving, cares for the pest-
stricken whom all others abandon, and pours the oil of Help
and Pity into the bitter wounds of the World.

Where a volcano has wrought desolation in Japan, or a
Flood in China, or a Hurricane in Cuba, or a Famine in
India, or a Plague in Italy, or ravaging Armies in Poland,
Serbia or Belgium, there flies the Red Cross, the Angel of
God whom the fury of men cannot banish from the Earth;
and to the Ends of the Earth, over all the ways of the Seven
Seas, wherever is Human Misery, there is extended, to bless
and to heal, its Long Arm of Mercy.

STRETCHING PARIS TO MEET THE NEEDS OF FRANCE

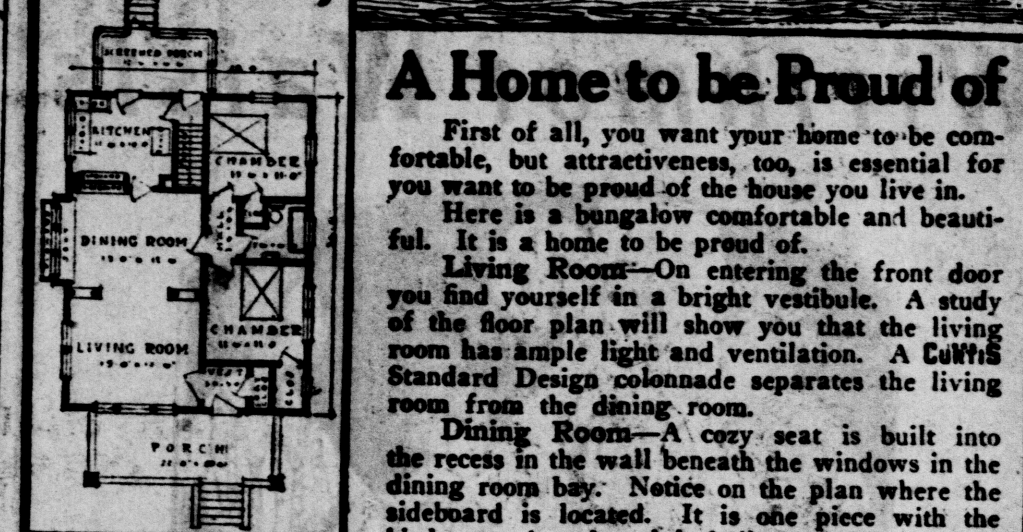

THE RED CROSS HAS HELPED WHERE GOV-
ERNMENTS WERE HELPLESS.

The avalanche of refugees that
swept into Paris from the north of
France had been the despair of the
civil authorities. These homeless,
stunned people were a new responsi-
bility to be added to the thousands of
wounded men that came steadily from
the shambles of the west front.
Paris is an old city. It was not
ready to take in its neighbors' child-
ren. Its population was already a
tight fit. So it made the best of its
poor hospitality by offering up its gar-
rets. New building construction seem-
ed impossible. Men were scarce. The
mechanic was either manning the
trenches or fighting the fight in the
war factories. Paris was distracted.
It is wonderful indeed how nobly
Paris tried to meet this condition.
And it is remarkable how Paris met it
with the aid of our own Red Cross.
Unhindered by red tape or precedent,
our Red Cross put on overalls and
jumper, carried the hod, became archi-
tect, engineer and contractor and went
into the building of homes. Here was
a church lot that lay vacant; here an
unfurnished hospital; there a worn out
building, all of which in a fortnight
were started on their way toward new
apartments, rooms and sleeping wards.
We here at home who associate the
great Red Cross movement with band-
ages and white gowned nurses must
lose this old illusion in the light of a
thousand other works for humanity.
In this case we see the Red Cross
first as diplomats convincing the civil
authorities of Paris as to their ability
to remedy the situation, then as
architects remodeling buildings, chang-
ing building plans, hiring labor gath-
ered by themselves from the ex-sol-
diery and the older man, all the while
working under every imaginable hand-
icap, while Father Time cried, "Get it
done, get it done."
So out of the garrets came these de-
spaired people to find new hope in
clean homes, to get new cheer out of
sheer bodily comfort and fresh cour-
age to again take up the great trust
that France has kept so well—"to car-
ry on." It is not strange that our
French brothers believe in your own
Red Cross just a little more than you
do. But should this be?

THE SCARLET CROSS

By
Margaret Widdemer
Of the Vigilantes.

What is it that you do today, who lift the Scarlet Cross?
For all the withered world is down in ruin and in loss,
And all the world hears clashing sword, and hears no sound less plain—
What can you do who lift the Cross, but heal to fight again?
We guard the women left alone, heartbroken for their dead,
We save the children wandering where all save Fear has fled,
We raise again the broken towns swept down by shot and shell,
We heal again the broken souls hopeless from learning Hell—
Oh, they who saw but Grief and Hate see now our red sign plain—
We save the sad world's soul alive that: War had nearly slain!

A Home to be Proud of
First of all, you want your home to be com-
fortable, but attractiveness, too, is essential for
you want to be proud of the house you live in.
Here is a bungalow comfortable and beau-
tiful. It is a home to be proud of.
Living Room—On entering the front door
you find yourself in a bright vestibule. A study
of the floor plan will show you that the living
room has ample light and ventilation. A Cur-
tis Standard Design colonnade separates the living
room from the dining room.
Dining Room—A cozy seat is built into
the recess in the wall beneath the windows in the
dining room bay. Notice on the plan where the
sideboard is located. It is one piece with the
kitchen cupboard and is built into the wall be-
tween the rooms.
Bed Rooms—The bed rooms in this bungalow are separated from
the rest of the house. The front chamber has a daylight closet. The rear
room has a window on each of two adjacent sides.
Bath Room—A built-in medicine case with a plain plate mirror
over and a little drawer sets in the wall over the basin in the bath room.
Come in and let us tell you more about this and other homes.

If you think of building it will pay you to see us.
We have the lumber and other building material, and will
save you money as we manufacture a good part of our own
lumber. Can send you a good contractor to build for you.
This is only one of many house plans we have, and can
make any change in the floor or roof that you may want.
We also sell Red Picket Fence, screen wire, screen doors,
house paints and inside wall finish of all shades and the
very best brands.

NEWS NOTES FROM CAMP TRAVIS, TEX.

Camp Travis, Tex., June 1.—The
casual visitor to Camp Travis, who
has not lost in this day of motor cars
an interest in horse flesh, marvels at
the splendid collection of horses to be
seen about the camp. They are in
excellent condition, well cared for,
well trained for the most part, but
there is a reason.

One of the largest remount sta-
tions in the world is located at Camp
Travis. Here every horse and mule
used at the camp is received, sorted,
inspected, branded and fattened.
The wild ones are broken, and in the
breaking Camp Travis has gathered a
choice collection of premier bron-
cho busters of the world of the kind
that is developed in Texas and Ok-
lahoma. They will ride anything
any time, and hundreds of people
visit the Remount to see the wild
animals broken to the saddle.

Sick and injured horses are given
far better treatment than the people
in many localities receive. Three
large veterinary hospitals are located
at the Remount Station, with a corps
of seventeen graduated veterinarians
and a staff of seventy-five men as
assistants. They have at their com-
mand all the experience, medicine,
and instruments the United States
government can afford.

Horses, like men, are trained on a
schedule, the keystone of which is

regularity. They are fed balanced
rations at regular hours and are
given every attention. In the army,
particularly in those branches of the
service where the horse and mule is
used continuously as in the cavalry,
machine gun, etc., the animal comes
before the man. After drilling all
day, or fighting, when the recall has
sounded then the animal gets first
attention, and the man comes next.
After horses or mules have been
inspected at the Remount Station
and have developed or given indica-
tions of spavin, blindness, or any
symptoms of diseases making them
unfit for army service, they are
caught, branded with an "IC," which
means "inspected and condemned",
and then sold. The brand is placed
on the neck. Army buyers will not
buy in horses so branded. Such
horses may be fit for any and every
duty demanded of them for other
purposes, but Uncle Sam is particu-
lar.

Peach marmalade is a delicacy,
particularly in an army camp, but the
way it is being served recently is not
at all popular and steps may be
taken to stop any further distribu-
tion at Camp Travis. Soldiers have
recently been getting a taste of it
on their letters or newspapers. The
friends and parents of the soldier
boys have thought to send them
fresh peaches in flimsy containers.
The large volume of mail received at
the Camp makes tender handling of
mail sacks an impossibility and the
peaches have been smashed and
their juices and meats distributed
among the remainder of the mail in
the near neighborhood. The post-
office authorities are urgent in their
request that peaches be not sent
through the mails unless the con-
tainers are heavy enough to stand
some pretty hard jolts. The peaches
never reach the parties intended and
the good humor of many is spoiled
when oftentimes the most important
or most eagerly sought for word in
a letter is nothing more than a stain
of peach juice.

In order that mosquitoes may not
breed in or near Camp Travis, gangs
of men are working daily on the
banks of the Salado, which runs near
the Camp, cleaning out drift
wood, slaughtering the course, elim-
inating holes of standing water and
distributing crude oil. Camp au-
thorities take every step to insure
the protection of the health and
happiness of the soldier boys. The
Salado is fed by running wells. Bath
houses are being erected for the use
of the men, swimming classes organ-
ized, special hours designated for
respective units, in order that all
may benefit by the fresh water. A
dam has also been erected to deepen
the waterway. Along the banks of
the river are groves of huge pecan
trees, offering shade and cool spots
to rest.

Sergeant John C. Blandford has
returned to Camp Travis, Texas, af-
ter spending a short furlough with
relatives at Ada, Oklahoma. John
says Ada always looked good to him
and although he had lived a great
many years, he had never realized
before what a grand old place she is.

HOW GERMANS TORTURE PRISONERS

The lower picture was taken by a French prisoner of war in the German
prison camp at Sennelager bei Paderborn in November, 1914. It was brought
out, sewed in the lining of his coat, by W. J. Prendergast, a private in the
Dublin Fusiliers, captured in the retreat from Mons, who is shown in the upper
photograph. Prendergast was educated at the public schools of New York and
Chicago, and has returned to this country, having been exchanged and hon-
orably discharged from the British army because of his wounds. Of the pic-
ture he says: "The two men tied to the pole are British prisoners of war, who
committed no offense whatever, but were put there for fighting against the
Germans. The wooden shoes which they wear were given to all prisoners and
their own shoes taken off them. The men at the pole are tied up with their
soap pnt in front of them and left for 48 hours at a time in rain, snow and hail
and without food. I have been tied to that very pole for 48 hours myself."

AMERICA'S MERCANTILE FLEET GROWING FAST

The mercantile fleet needed to carry our soldiers overseas and the
quantities of supplies needed to keep these men and our allies sup-
plied with food and other necessities, is being rapidly completed. This
fleet, which in one of the many shipyards working to capacity shows a
section of the fleet almost ready to be launched.

PLAN OF SMALL VEGETABLE GARDEN

Row 1—Lettuce, 1/2 row; radishes, 1/2 row; later 1/2 row radishes.
Row 2—Onion seed.
Row 3—Onion sets.
Row 4—Spinach, 1/2 row; mustard, 1/2 row.
Row 5—Cabbage plants, lettuce plants between.
Row 6—Irish potatoes.
Row 7—Inclusive—Beans, two different plantings.
Row 8—Turnips.
Row 9—Inclusive—Corn, two plantings.
Row 10—Beets.
Row 11—Okra, 1/2 row; eggplant, 1/2 row; pepper, 1/2 row.
Row 12—Carrots, 1/2 row; parsnip, 1/2 row.

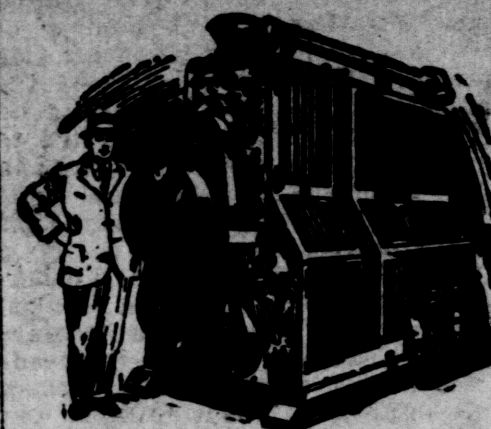

The above lay-out for a backyard garden in town was prepared by Prof.
D. C. Mooring, garden specialist for the Extension Division of Oklahoma A.
& M. College in co-operation with the United States Department of Agricul-
ture. The arrangement is adapted to a space 50x50 feet.

The early maturing vegetables that are expected to occupy space but a
comparatively short time are placed to one side of the garden. When these
are matured and harvested they may be replaced by other products.

Lettuce, radishes, peas, green onions, spinach, and mustard may be re-
placed by sweet potatoes, later planting of corn, or turnips. Tomato plants
may be set in between some of these plants and when they are removed the
tomatoes will have full use of the ground. Black-eyed peas may be planted
between the Irish potato rows and after the potatoes are harvested will con-
tinue to occupy the ground.

Just as soon as a crop is removed from the ground, cultivate and keep
this space prepared for another crop. This will prevent growth of weeds
and will keep the soil in good condition.

A garden this size, intensively cultivated, will supply a bountiful quantity
of fresh vegetables for a family of five persons through the spring and
summer.

During the period of the War, we will not sell
this revolutionary mill unless for
purpose is to supply the local needs of a commu-
nity, or our Government, with flour and feed.

DO YOUR BIT. Help the Gov-
ernment by saving the freight

U. S. NAVY READY TO FIGHT HUN FLEET.
New York, June 3.—The United States now has a large number of first class battleships "preparing side by side with the best ships of the British navy for an engagement on the high seas, which is expected to occur at any time with the German fleet," according to a statement made in an address here tonight by Rear Admiral Albert Gleaves.
"I am not going beyond the border line of secrecy," declared Admiral Gleaves, "when I say that a few days ago there came an alarm to the heads of the British navy that the German battleships were about to come out for the expected engagement on the high seas. I know that the British navy heads gave the first class American battleships a post of honor in preparation for the attack."

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

WHAT'S IN A SCOUT'S HEAD

Among the ten things that even a second class scout must perfect himself in are these: Use properly a knife or hatchet. (This means that he knows how to cut and prepare firewood.) Prove ability to build a fire in the open, using not more than two matches. (If he can do this, he certainly can build one in the kitchen stove with ease.) Cook a quarter of a pound of meat and two potatoes in the open without any cooking utensils. (When he has got this far in his cooking training, he can certainly help mother out with a meal, and can even get the dinner for dad and the children when mother is away.)

To become a first class scout, among the 12 things that he must know are the following: Prepare and cook satisfactorily, in the open, using camp cooking utensils, two of the following articles as may be directed: Eggs, bacon, hunter's stew, fish, fowl, game, pancakes, hoe-nah, blintz, hardtack or a "twist" baked on a stick, and explain to another boy the methods followed.
After he has become a first class scout it is up to him to get a merit badge for cooking. To be able to obtain this, a scout must: Prove his ability to build a fireplace out of stone or sod or logs; build a fire in the fireplace, and cook the following dishes: Camp stew, two vegetables, omelette and rice pudding. Demonstrate ability to mix dough and bake bread in an oven; and also to make tea, coffee and cocoa. Carve properly and serve correctly to people at the table.
The scout is taught to take care of himself and his fellows in the open.

SCOUTS W. S. S. CAMPAIGN.

The year-long War Savings stamp campaign of the Boy Scouts of America is going along very merrily. Indeed the local War Savings stamp committee throughout the country are enthusiastic in reporting on the splendid spirit and effective co-operative work of the Boy Scouts of America.
Many scouts have already earned the Achievement button given by the treasury department when 25 sales are made to different people, and quite a few have the Ace medal for \$250 in sales.
Already 12,000,000 red post cards have been printed by the government printing office and distributed, and 8,000,000 more are now being printed, and if the demand keeps up as at present it will require at least 30,000,000 additional cards to take care of the needs of the scouts for the first four months.
The cards are now coming in to national headquarters at the rate of 12,000 a day.

SCOUT IS NOW AN AIRMAN.

A scout with nerve can accomplish anything he goes out for. This is proven by Clifton Penn Olson, the youngest birdman in the service and one of the nerviest.
Olson is scarce eighteen years old, but he has gone through the rigorous training in aeronautics at the Curtiss school at Miami, Fla., and has been granted a commission by the war department at Fort Sam Houston, Tex., training other boys.
When he was twelve years old, he saw the great Beachey make his sensational flight at Dubuque. As Beachey's plane at length swooped down to earth, Scout Olson dodged policemen, jumped the ropes and reached Beachey.
"I, too, am going to fly some day," he cried. A group of policemen made a rush for the boy. "Leave him alone," the airman said; "that kid has nerve, and that is what makes an aviator."

SCOUTS IN RUBBISH DRIVE.

A sanitary survey was conducted by the scouts of Portsmouth, O., at the request of the mayor.
Deputized for this special work, 212 scouts took one city block each, being excused from school for this service.
They assembled at the city hall, where they received instructions. Then they scattered to their assigned blocks, made the inspection and returned with their reports to their troop headquarters.
The reports covered the condition of alleys, back yards and garbage. The boys also took a census of gardens being planted. The survey was followed by general cleanup campaigns in which the bad conditions were discovered and remedied.

GOOD TURNS BY SCOUTS.

During the progress of a fair at Canton, O., several lost children were picked up and restored to their parents, and during a fair at Atlanta, Ga., 50 children who had become lost at the grounds were similarly found and restored.
Scouts of Omaha, Neb., have started a class in cobbling, fitting instruction from an expert cobbler, and are repairing discarded shoes and selling them for a nominal price to those in need.

FOR BETTER ROADS

(Conducted by National Council of the Boy Scouts of America.)

MAINTENANCE IS BIG SECRET

Great Folly to Spend Money in Construction of Roads Neglected After Completion.

Maintenance is the secret of a good road system. It is great folly to spend money in the construction of roads which are neglected after their completion. Unless intelligence and diligence is used in the up-keep of a system of roads their value will depreciate under ordinary circumstances faster than new roads can be constructed. It is therefore essential that after a road is once built, great care should be taken in its upkeep. There is no question that the cost of proper maintenance is many times saved in the increased economic value of the highway traffic.

Rounding "Dead Man's Curve."

Maintenance may be divided into two general classes: First, the upkeep of roads which have been constructed along standard line with minimum grades, proper drainage and surfacing material; second, the conditioning of roads that have had little, if any, constructive attention.

Highways coming under the first class are not so liable to be neglected by those entrusted with their care, and while their maintenance problem is a very important and necessary one, this class of roads represents only a lesser portion. The greater percentage of roads in the state are not improved. Inasmuch as this class of roads serve the majority of the people and this kind of road will always predominate, it is very necessary that attention be directed to proper ways and means of their maintenance.

Each year more or less construction work is being done and the mileage of improved roads increased, and while this work is going on the unimproved roads should be kept in as good condition as possible at a minimum cost.

The best results can only be obtained by the enthusiasm and local pride of the man who uses the road. He is the fellow most interested, and a small amount of intelligent attention by himself and his neighbors will show great results on their particular section of the road.

This rule applied throughout the length and breadth of any state would mean a system of earth roads that could be pointed to with pride.

PAYING FOR GOOD HIGHWAYS

Improved Roads Have Always Been Necessary Adjunct to State, Community and Individual.

Good highways are and have always been a necessary adjunct to the welfare of the state, community and individual. The argument, "Good roads cost lots of money," may in reality be true when figured in dollars and miles, but is incorrect when considered in reality. Good roads must be paid for, but they are paid for whether they are built or not. The wear and breakage on teams, harness and vehicles, and the increased cost of hauling on poor roads is costing the grower far more than the price of building and keeping in repair the very best roads. He is actually paying for the roads without getting them; and, besides, is put to much inconvenience and worry. In short, good roads cost nothing.

Stored Seed Corn.

Actual tests have proved that carefully stored seed corn will yield as much as 15 bushels more to the acre than seed from the ordinary storage of the corn crop.

Something Lacking.
There is something lacking in the nature of a man that misuses and mistreats his horse.

Care for Late Farrowing.
Sows with late farrowings need warm pens and good care for several days.

To Overcome Fatigue.

If you are weary after a fatiguing day, on reaching home take ten minutes' rest lying on the back. When you rise, cleanse the face with cold cream, rubbing lightly across the lines and in an upward direction to correct sagging of the muscles. A cloth wet in very hot water should then be applied, followed by several applications of cold water. You will be surprised to find yourself quite rejuvenated.

We Do More Than Simply Sell You Shoes—
We really try to study your feet—to give you the very best shoes for your own particular needs.
And each year we become more and more convinced that the very best shoes for summer-wear are Keds—the perfected rubber-soled canvas shoes that are so acceptable for work, and dress and play.
We have many styles of Keds for all members of the family and they are not at all expensive.

The Homeland.

Ada Methodist.
O, the homeland is the land we love!
Gray are the skies that brood above
The drifting snows of the hardy North,
Where from seashore and valley we hurry forth!
On the path where honor and duty lead
To a stricken world in its bitter need;
But the homeland, the dear land,
The homeland is the land we love!

Where the moonlight falls in golden gleams
Over orange groves and whispering streams,
Where the mocking bird in the jasmine bowers
Chants his love through the drowsy hours.
Sons of the men who wore the gray,
Rank on rank we have marched away
From the homeland, the dear land—
O, the homeland is the land we love!

From mountain and desert, from ranch and plain,
From searh for pleasure and hope of gain,
From mine and from forest, from river and hill,
The men of the west are coming still;
Firm is our faith in the glorious prize
Which we see in the future with steadfast eyes
For the homeland, the dear land,
The homeland, the land we love.

As we look our last on the clear home lights,
When the troop ships glide through the solemn nights,
Should we feel in the dark the stealthy blow,
The thrust of a savage and cunning foe,
Calmly we'll die, if need there be,
And our young lives offer for liberty
And the homeland, the dear land,
For the homeland is the land we love.

If, braving all perils by shell and fire,
We see the end of our long desire
And look with joy on a world restored
By the might of our swift-avenging sword,
With a sigh for our dead in their lonely graves
We'll set our course o'er the swelling waves
To the homeland, the dear land—
O, the homeland is the land we love!

—EMMA FRANCES LEE SMITH.

Methodist Matters.

We had a great day yesterday at the First Methodist, "The Home-like Church." A great crowd attended Sunday school and the offering was \$36.00.
There were six who gave their names as new members in the church Sunday with others to follow. The pastor asked for two hundred and eighty dollars in the offering Sunday morning and got about three hundred dollars.
The evening audience was very largely made up of young people and the auditorium was well filled. The Epworth League meeting was one of the best ever.—Wallace M. Crutchfield, Pastor.
